

I Have A Name

Lapko

I have a name i have name and you have
you have your rights it's alright
that's your right
you push it away you push it away
and i deny my name it's my own choice
my special right

Your rights belong your rights belong for you
one opinion second chances your reflection
I think you don't need your name
you don't think I'm free

I could see the blank fire on your eyes
I could see another lost case
you have your problems and
I have my opinion and it's alright

But one step two steps beyond
may help you to be on your side
cause most aggressions come
because of fear gives sigh
I don't mind until the fear gives a sigh
I don't mind until it makes me fight

I could see the blank fire on your eyes
I could see another lost case
you have your problems and
I have my opinion and it's alright

I don't mind until the fear gives a sigh
I don't mind until it makes me fight
I don't mind until it makes me cry
I don't mind i hope I'll never mind

But one step two steps beyond
may help you to be on your side
cause most aggressions come
because of fear gives sigh
