

32 Floors

Låpsley

First time
It's the first time I've
I've given up my struggle for control
I feel your hands support me as you hold

And I try
Try to fight it, but why?
You need this as much as I do too
It's lonely when nobody understands you

Then it all stops
And I bathe in white noise
Let myself drop in your eyes
For a minute, I'm lost
And I free fall down these 32 floors
And I land in your arms, that's trust

And I bathe in white noise
Let myself drop in your eyes
For a minute, I'm lost
And I free fall down these 32 floors
And I land in your arms, that's trust

Pressure
Like the heavy air that flows between lips
If only I could freeze this
Pause it for a moment

And balance
Meet the challenge, facing all our demons
(Facing all our demons)
We blossom like the seasons
We've both got our reasons

Then it all stops
And I bathe in white noise
Let myself drop in your eyes
For a minute, I'm lost
And I free fall down these 32 floors
And I land in your arms, that's trust

And I bathe in white noise
Let myself drop in your eyes
For a minute, I'm lost
And I free fall down these 32 floors
And I land in your arms, that's trust

Then it all stops
And I bathe in white noise
Let myself drop in your eyes
For a minute, I'm lost
And I free fall down these 32 floors
And I land in your arms, that's trust

And I bathe in white noise
Let myself drop in your eyes
For a minute, I'm lost

And I free fall down these 32 floors
And I land in your arms, that's trust
