

(2x):

You said there is nothin' to hide  
There is nothin' to change  
Just look into my eyes  
And there's old stuff too

(2x):

And the wind goes round and it follows the back signs  
We're running down roads and crossing track stones  
Pay for the ticket, just enjoy the seconds  
Run away another day

(2x):

You said there is nothin' to hide  
There is nothin' to change  
Just look into my eyes  
And there's old stuff too

You keep it flying so high  
But lock it down low so it feels right  
Just look into the sky and it becomes you  
Sweep young feel on a dark night  
Lifting me up into arms tight  
Open up my mind and it becomes you

(2x):

And the wind goes round and it follows the back signs  
We're running down roads and crossing track stones  
Pay for the ticket, just enjoy the seconds  
Run away another day

Nobody seems to, nobody seems to

(2x):

And it's times like these when you wish you weren't  
A 8896 wishing bird  
And nobody seems to fly at your level  
Just go faster than the others

(Nobody seems to, nobody seems to)

Just got faster than the others, faster than the others  
Faster than the others, faster than the others  
Go faster than the others  
(Faster than the others)

(2x):

And it's times like these when you wish you weren't  
A 8896 wishing bird  
And nobody seems to fly at your level  
Just go faster than the others
