

Build A Man

Låpsley

I could take a page out of your book
Maybe I should get married
Know you're on to the next
Been a while no regrets
I should be happy
Dream to be the husband that you want to be
Just close your eyes and build a man
Promises are everything
I rate the way you're saying them because you can't
I don't want to be liked
I don't want to be liked

Pick a ring
Paint a scene
Protea, champagne, Vivienne
I'm proud of you baby
Crystal glass shimmering
With the sun beat down simmering in January
Dress to be the person that you want to be so picture me from m
emory
(Undressed)
Sex is just a state of mind
I hate the way you crossed the line right after me
But I don't want to be liked
I don't want to be liked

I want to be loved (by you)
I want to be loved (by you)
(Undressed)
(Undressed)
(Undressed)
