

# FEATHERWEIGHT CHAMPION OF THE WORLD

Lápsley

After her comes afterburn  
Soothe it in the sea  
You built a home, then took it down  
Wood back to the trees  
And you're mapping my topography  
I'm changing with the leaves  
And I can't take my gaze away  
And you can't keep your hands off me

I told you we were treading water  
At the confluence of time

We're standing in the kitchen  
Bet the neighbours saw us dancing  
Close enough to cause a fire  
I'm running through the answers  
Of all the things you could have said  
Love would be the heaviest  
I say it like a featherweight  
Champion of the world

After him, let others in  
Driving past the city lights  
And I'll fly until I know for sure  
No string on my paper kite

And after the hurt, after the worst  
Pain becomes a fault line

We're standing in the kitchen  
Bet the neighbours saw us dancing  
Close enough to cause a fire  
I'm running through the answers  
Of all the things you could have said  
Love would be the heaviest  
I say it like a featherweight  
Champion of the world

We're standing in the kitchen  
Bet the neighbours saw us dancing  
Close enough to cause a fire  
I'm running through the answers  
Of all the things you could have said  
Love would be the heaviest  
I say it like a featherweight  
Champion of the world
