

Make U Stay

Låpsley

You said I would know what to, I would know what to do in time
Yet here we are again
Picking up phone lines
I said I would make changes, I would make changes when it feels
right
Yet here we are again
What's a girl gotta do to make you stay?

You said I would know what to, I would know what to do in time
Yet here we are again
Picking up phone lines
I said I would make changes, I would make changes when it feels
right
Yet here we are again
What's a girl gotta do to make you stay?

Sometimes I feel like you're winning (Watch it all burn...)
And all I do is lose (Watch it all burn...)
Sometimes I feel like you're winning (Watch it all burn...)
And what a man you are, we could go so far (So far)

Take me make a commitment, get in my system, baby hold tight
Round and round again
Swimming through high tides
Stupid make me feel little, dust will settle after the night
Round and round again
What's a girl gotta do to make you stay?

Watch it all burn...
