

# Pandora's Box

Lápsley

Ships passing in the nighttime  
I miss laughing in the club lines  
You're always landing on a late flight  
But you brought green to the red eye

And if you'd have put all hands in  
At the time I needed  
Maybe I would understand you  
Baby, more than I did  
I know I can be Pandora  
And I box off that shit  
Maybe we were good together  
You're the key to open it

But I'm too late now  
(Tell me now, ooh)  
Too late now  
(I'm too late, too late)  
But I'm too late now  
(Tell me now, ooh)  
Too late now

When I recall a full moon  
(Pink matter)  
I can see the dark side too  
(I thought I mattered)  
She'll only get a partial view  
(It hurts me too)  
Wait until the tide comes through  
(You'll turn around and say that I missed you)

And if you'd have put all hands in  
At the time I needed  
Maybe I would understand you  
Baby, more than I did  
I know I can be Pandora  
And I box off that shit  
Maybe we were good together  
You're the key to open it  
But I'm too late now  
Too late now  
(I'm too late, too late)

But I'm too late now  
(Tell me now, ooh)  
Too late now  
(I'm too late, too late)  
But I'm too late now  
Too late now  
(I thought I mattered)  
I'm too late, too late)
