

I didn't think it could happen
I never thought I'd be here
Now that I feel it I wonder
Couldn't there be a safer place
Well try, try and picture this
Fills up till you're in bliss
A nation full of rhymes

Ever ever land is a place between my brain and my soul
Ever ever land is a dream I dream to make me feel whole
Ever ever land when I need to be at peace it is the space
I keep to travel with my mind

Floating or flying just choose it
Silence and music to share
Lower your pain you can end it
Simply pure breathable air
Now, just imagine this
Only joy and bliss
To go through your life

Ever ever land is a place between my brain and my soul
Ever ever land is a dream I dream to make me feel whole
Ever ever land when I need to be in peace it is the space
I keep to travel with my mind

If you don't believe in this close your eyes and take a risk
Wish for something you have always wanted
Do it, give it all you've got
Dreams are just behind a thought
If you mean it with all of your heart

Ever ever land is a place between my brain and my soul
Ever ever land is a dream I dream to make me feel whole
Ever ever land when I need to be at peace it is the space
I keep to travel with my mind

Ever ever land you are welcome to step in at all times
Ever ever land you don't have to pack or check in your bag
Ever ever land you will soon decide to move in
Since it is a no man's land without a wall
Somewhere between here and always
Somehow a new piece of sky
