

One

Lara Fabian

If there was only one place on earth where you could go
One
Tell me where would it be and where where would you go
Choose one

Even if it seemed remote from where you are
Even if it seemed away away too far
If there was only one place on earth where you could go
One

If there was only one place on earth where you could go
One
Tell me where would it be and where where would you go
Choose one

Even if it seemed remote from where you are
Even if it seemed away away too far
If there was only one place on earth where you could go
One

I would go to you
I would go to you

I would go to you
I would go to you

I would go to you
I would go to you
