

## Review My Kisses

Lara Fabian

I'm only happy when I'm with you  
I only feel good when I'm talking to you  
And I'm a mess when you don't call me  
Call me at night  
Where did you go?  
Where did you go?  
And did you think of me?

It's hard to breath when my heart is sinking  
I'm slipping fast as I'm reaching for you  
It's gonna hurt 'cause I have been there before  
Can't take much more  
Can't take another night  
Without you here beside me

I want to review my kisses  
On every inch of your body  
I want to reveal my secrets  
That only you should know  
I feel all this pain inside me  
That only your lips can make better  
I wanna review my kisses  
So you won't forget that you are mine

Don't wanna care more than you do  
Don't wanna be the one who's out in the rain  
Don't wanna get that call where you sound so cold  
So far away, So far away  
Like the distant roll of thunder

I want to review my kisses  
On every inch of your body  
I want to reveal my secrets  
That only you should know  
I feel all this pain inside me  
That only your lips can make better  
I wanna review my kisses  
So you won't forget that you are mine

It's a cave in the darkness  
And I'm lost inside you  
Don't go...

I want to review my kisses  
On every inch of your body  
I want to reveal my secrets  
That only you should know  
I feel all this pain inside me  
That only your lips can make better  
I wanna review my kisses  
So you won't forget that you are mine  
So you won't forget that you are mine
