80/20 Rule

Larissa Lambert

Baby, won't you hit me back
Starting to realise
I get the point
No, you don't want me like that
Only if I'm face down
Only if she's not around

This isn't what I wanted
I used to feel so wanted
Don't wanna be second best
What's she got that I don't?
I wish I didn't know
'Cause now I'm hurting so bad

I just want somebody to love me like I love you
Someone who gon' touch me like you touch me too
Fuck this 80/20, I want all of you
Nobody could ever add up to you, you like
I know you probably with someone else right now
But I hope that it's me you thinking about right now
I can't make you love me if you don't want to
I just wish you loved me like I love you

Put it down right
She can't put it down like mine
Show 'em my freak
Maybe that will make you miss me more, right?
He don't love me, no
He just loves what I can do
She gets the 80, I wish I gave to you like

What do you want from me?
Why you be making me so insecure?
Maybe I gotta look like that
Do I gotta get a booty like hers?
No, I ain't contemplating on my own image
Losing myself to someone
Who don't care about my feelings

This isn't what I wanted
Thought I was all you wanted
I deserve better than this
You the only one on me
I wish you ain't never got me
'Cause now I'm hurting so bad

I just want somebody to love me like I love you
Someone who gon' touch me like you touch me too
Fuck this 80/20, I want all of you
Nobody could ever add up to you, you like
I know you probably with someone else right now
But I hope that it's me you thinking about right now
I can't make you love me if you don't want to
I just wish you loved me like I love you

I just want somebody to love me like I love you
It ain't that hard to be honest

If you don't want me baby just leave
Fuck this 80/20, I want all of you
If you got a girl, tell me why you fucking with me
If you got a girl, like why you gotta act like that?
You never loved me like that

If you don't want me baby, don't act like you do
No, I ain't just some bitch up on the side for you
You, you

If you don't want me baby just leave
Fuck this 80/20, I want all of you
If you got a girl, tell me why you fucking with me
If you got a girl, like why you gotta act like that?
You never loved me like that
