

## All I Need (Interlude)

Larissa Lambert

I need those late night FaceTimes  
I need your hands on my waistline, are you mine?  
I'm tryna be fine but I can't fight it tonight  
This some kinda love that I don't know how to define

Ooh, I don't want you to go, don't walk away  
'Cause if I didn't have you then who would I paint  
I open up my heart  
I wanna be in yours  
You'll be loving me always  
I gotta be sure, gotta be sure

Cause you're all I need  
I've been falling for you and I can't deny it  
Everything you do got me feeling like  
You're all I need (All I need, yeah)  
And I think you should come through  
I think you could be my one  
'Cause everything you do got me feeling like  
You're all I need
