

# Come Over

Larissa Lambert

My Soul is with you baby  
I always come back to you  
You ain't near me  
But I feel every part of you

Oooh

I miss the way your hands all on my hips  
You miss the way I ride I do it like this  
Oooh oooh  
Got somebody new tryna forget ya  
Yeah yeah  
But my soul is with you baby

So come over  
Or we can go somewhere someplace different  
We won't tell nobody we leaving  
I hate being here without you  
Come over to me

So come over  
Come over to me cause I want ya  
Come over  
I hate being here without you  
Come over

So come over  
I miss the way your hands all on my hips  
Come over  
You miss the way I ride I do it like this  
Come over  
Got somebody new tryna forget ya  
Come over  
But my soul is with you baby  
So come over

I'll be on my way babe  
Cause I'd do anything for you  
He laying near me  
But he don't know I think of you

I miss the way your hands all on my hips  
You miss the way I ride I do it like this  
Oooh oooh  
Got somebody new tryna forget ya  
Yeah yeah  
But my soul is with you baby

So come over  
Or we can go somewhere someplace different  
We won't tell nobody we leaving  
I hate being here without you  
Come over to me

So come over  
Come over to me cause I want ya  
Come over

I hate being here without you  
Come over

So come over  
I miss the way your hands all on my hips  
Come over  
You miss the way I ride I do it like this  
Come over  
Got somebody new tryna forget ya  
Come over  
But my soul is with you baby  
So come over
