

I Got You

Larissa Lambert

Tell me is it too much?
To have you one last night again
He don't add up to you
You're still the one that's in my head

'Cause I still feel like you belong to me
Your presence always here, you never leave

Only for you
There's a place I keep forever
'Cause I got you for life
Since I had you
No one else can do it better
I got you for life

'Cause I got you for life
I got you for life

Tell me whose got all your loving?
Who better for you than me?
I still hold onto you
I hope you come back to me

I just look for you in other faces
My soul, it longs for you, I can't erase us

It's only for you
There's a place I keep forever
'Cause I got you for life
Since I had you
No one else could do it better
I got you for life
'Cause I got you for life
I got you for life
