You've been living in my mind
You do
When it's 2 am that's for you, I
Don't think it through
Give me one last line
Or 2
It's hard to say no, I
Can't fight it

Theres nothing that can get me high
Like you
You feel so good in the moment, I
Don't think it through
Theres nothing that can get me high
Like you
I say it's one last time
But she's always on my mind at night

Cause when I'm alone
You be the one that I'm calling for
Feels so good when I'm on
But f me up in the morning
Baby you ain't no good for me
But I can't get enough of you
I got a hole in my heart
I use the key for the baggy
Tear my baby apart
So I can keep you around me lately
She got a part of me
But I keep coming back to you

I know you poison baby
I do
No your heart ain't pure and I know I
I'll always lose
Been trying not to call you lately
Fall through
Cause you pick me up when I fall down
Only you

Can get me high
Like you do
You feel so good in the moment I
Don't think it through
Theres nothing that can get me high
Like you
I say it's one last time
But she's always on my mind at night

Cause when I'm alone
You be the one that I'm calling for
Feels so good when I'm on
But f me up in the morning
Baby you ain't no good for me
But I can't get enough of you
I got a hole in my heart
I use the key for the baggy

Tear my baby apart
So I can keep you around me lately
She got a part of me
But I keep coming back to you

Used to see you around
And I ain't think nothing of it
Now I can't go a day
Where I ain't been thinking of it baby
You got this hold on me
But you dirty you no good

You just tear me apart
My world you go and destroy it
Everything that I love
I lose it all for a moment with you
You're poison baby
