Something in this liquor got me doing things that I don't do
You got that good good that something, baby I want more of you
What are you doing?
What are you doing to me baby?
I want it all
I want it all on me yeah

I want you all to myself
Fuck sharing with someone else (oh yeah)
You picture your body on me
You know you look better with me (oh yeah)
I'll make time cause you worth it, I know you deserve it (oh yeah)
Baby we bound to get comfortable
You know I'm gon keep it untouchable

Cause it's all for you
Oh you know I got that make you fall in love I do
When I put it down on you
Know I can be good
Oh baby it's your time
You gon be all mine
Who they got like me not probably one

Something in this liquor got me doing things that I don't do
You got that good good that something, baby I want more of you
What are you doing?
What are you doing to me baby?
I can't take it
Faded baby I want all of you
Yeah your eyes up on me
Know I see you from across the room
Put your hands on my waistline
I know you like the way I move
What are you doing?
What are you doing to me baby?
I can take it, faded baby I want all of you

Say less when you go like that on me (oh yeah)
So much in my head, henny got me unaware
Ridin rodeo in my head I be
Losing concentration
Faded baby I want all of you

Touching my body and it feel like summer
Cause it's getting hot
Wait it's hotter than hot and I love the way that you work the middle
Rock the boat when you work the middle
He know I got what he needin
Ain't no one that gon do it like me
I love to make you feel a way baby
I could do this all day cause

It's all for you
Oh you know I got that make you fall in love I do
When I put it down on you
Know I can be good
Oh baby it's your time

You gon be all mine

Something in this liquor got me doing things that I don't do
You got that good good that something, baby I want more of you
What are you doing?
What are you doing to me baby?
