

Bluephoria

Larkin Poe

Brother, I been rocked by a rocky road
One time two three many, amen
My fuse is burning pretty short, sweet lord have mercy
I ain't getting bucked off again

You went and dug a little deep
To the bottom of the bucket, good luck it's all gonna blow
Canary ain't singing no more, been down before
Up is all I got to go
I said: up is all I got to go

Send me into that blue, bluephoria
Send me into that blue, bluephoria

Mama, calm me down, this rose-tinted workaround
Ain't working for me no more
I'm deep in the indigo, eyes shut, vertigo
Dancing on an edge I can't ignore

I grew all the way up
Gotta grow myself down, deep roots, gonna sing a different tune
We are who we are and I know I ain't a star
But I sure might like to shine like the moon
Shine like the moon

Send me into that blue, bluephoria
Send me into that blue, bluephoria

Send me into that blue, bluephoria
Send me into that blue, bluephoria
Send me into that blue, bluephoria
Into that blue, bluephoria
