

# Honey Honey

Larkin Poe

I'm as American as apple pie  
I'm kicking down the door  
'Cause I got plenty in my pocket  
But you know that I want more and more  
Smoke it down to ashes  
With the empty light on  
I like it like that

You can call me crazy  
You can tell me that I'm good God-awful  
If you knew the state I'm in  
Would you even bother  
By the altar with the rattlesnake  
The venom and the faith  
We like it like that

You got your stars on, USA  
We're finding freedom on the freeway  
Changing lanes 'cause we are driving  
For the blacktop, say a prayer  
To little Jesus on the dashboard  
Close your eyes, you're gonna get a free ride

Leaving from a white house  
Feeling presidential  
Take a ride in my motorcade  
Motion is in retrograde  
Pedal to the metal  
Cause the devil cut the brakes  
Do you like to go fast?

Begging for a car crash  
Red and white and blue  
Guess you could say we're complicated  
But whatcha gonna do  
It's not like we could give it up  
It's not like we would try  
Do you like to go fast?

You got your stars on, USA  
We're finding freedom on the freeway  
Changing lanes 'cause we are driving  
For the blacktop, say a prayer  
To little Jesus on the dashboard  
Close your eyes, you're gonna get a free ride

Honey, honey I was born for a fast world  
Honey, honey I was born for a fast world  
Honey, honey I was born for the world

You got your stars on, USA  
We're finding freedom on the freeway  
Changing lanes 'cause we are driving  
For the blacktop, say a prayer  
To little Jesus on the dashboard  
Close your eyes, you're gonna get a free ride

Honey, honey I was born for a fast world  
Honey, honey I was born for a fast world  
Honey, honey I was born for a fast world

(I'm as American as apple pie  
I'm kicking down the door  
'Cause I got plenty in my pocket  
But you know that I want more and more  
Smoke it down to ashes  
With the empty light on  
I like it like that)
