

# Little Bit

Larkin Poe

Why would I want to change my life  
Why is it new is always better  
If I looked in the mirror would I recognize  
This winner you'd have me stitch together

I'm not ashamed of what I'm not  
I'm a long ways from the top  
And that's okay 'cause

I want just a little bit  
Little dream, little plan  
Little rock n roll band, little different  
It's a small world, I don't wanna think big  
Keep the things I need on a very short list  
What do you keep looking for  
More ain't always more  
Than a little bit  
More than a little bit

I'm gonna walk a little lighter  
I won't let nothing weigh me down  
I know that I could climb higher and higher  
But I'm rich right here right now

'Cause when you're moving down the line  
Can't put a price on peace of mind  
And that's okay 'cause

I want just a little bit  
Little dream, little plan  
Little rock n roll band, little different  
It's a small world, I don't wanna think big  
Keep the things I need on a very short list  
What do you keep looking for  
More ain't always more  
Than a little bit  
More than a little bit  
Than a little bit  
More than a little bit

As the years go flying by  
No we ain't got a lot of time  
That's okay 'cause

I want just a little bit  
Little dream, little plan  
Little rock n roll band, little different  
It's a small world, I don't wanna think big  
Got all I need it don't get better than this  
What do you keep looking for  
More ain't always more  
What do you keep looking for  
More ain't always more  
What do you keep looking for  
More ain't always more
