

Nowhere Fast

Larkin Poe

We got just enough gas to get into trouble
Just enough trouble to start a reputation
Just enough torque to get the world shakin'
From east to west, Georgia does it the best

Me and my people came from the country
My country comes out when you tell me, "No"
We got a whole lot to do and not a lotta time to do it
All the way to the back, screaming, "Go! Go Go!"

What're you looking at?
Little me, oh my, as a matter of fact

'Cause I'm cool whippin' like it's Saturday night
Cool whippin', gonna push that light
Cool whippin', gonna kick that ass
We got nowhere to go
Nowhere to be
Believe you me
'Cause we're going nowhere fast
Going nowhere fast

We got just enough punk to play a little harder
We've come this far, now let's go a little farther
Up to the edge 'cause we can sleep when we're dead
There ain't no rest for the wicked
You bought the ticket, now I'm asking you

What're you gonna do
When we get to the top? It's a hell of a view

And we're cool whippin' like it's Saturday night
Cool whippin', gonna push that light
Cool whippin', gonna kick that ass
We got nowhere to go
Nowhere to be
Believe you me
'Cause we're going nowhere fast

You can build a road block
We ain't gonna stop, no, no, no
Throw those spike strips down
We're just gonna go around

'Cause we're cool whippin' like it's Saturday night
Cool whippin', gonna push that light
Turn around, gonna kick that ass
We got nowhere to go
Nowhere to be
Believe you me
'Cause we're going nowhere fast
We're going nowhere fast
