

Beer Needs A Beer

Larry Fleet

My Texas needs Willie
Hippies need Creedence
Bama needs Saban and we all need Jesus
My dog needs some kibble my Dodge needs a bath
But right now I just need a good time bad

'Cause my beer needs a beer
My smoke needs a smoke
My buzz needs a rocket and my rockin' needs some roll
My busy been busy as a bee making honey
My baby wants a baby, but my money needs some money
My day needs a day to get itself together
My night needs a night, that'll go on forever
I earned this blue ribbon just sitting right here
So my hands gonna need another can
'Cause my beer needs a beer

I wish the sun set later
The dollar was stronger
That last call could last just a little while longer
Wish the daggum Vols could throw the damn ball
That's the story of my life so maybe that's why

My beer needs a beer
My smoke needs a smoke
My buzz needs a rocket and my rockin' needs some roll
My busy been busy as a bee making honey
My baby wants a baby, but my money needs some money
My day needs a day to get itself together
My night needs a night, that'll go on forever
I earned this blue ribbon just sitting right here
So my hands gonna need another can
'Cause my beer needs a beer

My beer needs a beer needs an ice cold beer
One after another gonna make 'em disappear
No I ain't sipping tonight I'm chug-a-lugging
Don't bring me a bottle hell bring me a bucket

'Cause my beer needs a beer
My smoke needs a smoke
My buzz needs a rocket and my rockin' needs some roll
My busy been busy as a bee making honey
My baby wants a baby, but my money needs some money
My day needs a day to get itself together
My night needs a night, that'll go on forever
I earned this blue ribbon just a sitting right here
So my hands gonna need another can
'Cause my beer needs a beer
