

# Lord Willing

Larry Fleet

Well the sun came up this morning  
And the coffee in the pot's still pouring  
No I wouldn't complain if everyday was just like this  
There's a red bird singing in the backyard  
The kids running laps like NASCAR  
Just watching you smile, girl this is 'bout as good as it gets

Lord willing  
Baby I'll keep waking up next to you  
This truck'll keep running like it did brand new  
And blessings come down and my prayers keep getting through the ceiling  
Lord willing  
These little you and me's keep growing strong  
The hard times don't stick around too long  
N' I can make living, even if I don't make a killing  
Lord willing

Lord willing  
There's some miles left in these old boots  
And some count on buddies I'm close to  
Fish still bite, and the beers still cold, 'til I get to the other side

Lord willing  
Baby I'll keep waking up next to you  
This truck'll keep running like it did brand new  
And blessings come down and my prayers keep getting through the ceiling  
Lord willing  
These little you and me's keep growing strong  
The hard times don't stick around too long  
N' I can make living, even if I don't make a killing  
Lord willing

I'll always stay proud of the roots I planted  
Never take one more kiss for granted  
Little less stubborn, and more forgiving  
Lord willing  
Lord willing

Lord willing  
Baby I'll keep waking up next to you  
My truck'll keep running like it did brand new  
And blessings come down and my prayers keep getting through the ceiling  
Lord willing  
These little you and me's keep growing strong  
The hard times don't stick around too long  
N' I can make living, even if I don't make a killing  
Lord willing  
With the good Lord willing

Lord willing
