

More of That

Larry Fleet

I saw a five-year-old holding the door for a granny at the bank
He tipped his hat, said, "Yes, ma'am." I can tell it made her d
ay
She winked at him and smiled at me and said, "Good work, Dad."
Said, "The world could use a little more of that."

In walked in a feller in a Vietnam hat and bibs
Snuck up behind her in line and surprised her with a kiss
He said, "We been going strong for 60 long, and, man, it goes b
y fast."
Thought the world could use a little more of that

A little more meeting in the middle
Little more keeping it more simple
Little more working hard for something
Little more ain't stopping for nothing
Being humble, standing proud
Forever thankful for what we have
This whole world could use a little more of that

On the way to school, his eyes lit up when I said, "You wanna p
lay some hookie?"
We grabbed some Cracker Jacks and a Snoopy pole and took him wh
ere my daddy took me
And we made us some memories that might make his momma mad
But ain't nothing wrong with a little more of that

A little more meeting in the middle
Little more keeping it more simple
Little more working hard for something
Little more ain't stopping for nothing
Being humble, standing proud
Forever thankful for what we have
This whole world could use a little more of that

A little more meeting in the middle
Little more keeping it more simple
Little more working hard for something
Little more ain't stopping for nothing
Being humble, standing proud
Forever thankful for what we have
This whole world could use a little more of that
Aw, this whole world could use a little more of that

I walked in that bank with a 50-hour-hard-work check to cash
But I walked out with a whole lot more than that
