

Much To Talk About

Larry Fleet

There wasn't much to talk about 'round here
Except how hot it is and how cold's the beer
Ain't nothing changed since senior year
There wasn't much to talk about 'round here

At least there wasn't 'til you walked in
With your Tennessee ten and your Malibu skin
And I loved that lovin' me could be the reason that you stayed 'cause

It ain't everyday
A girl like you rolls in and shakes
This whole town upside down
But since you came around
It's all who's that girl? And where's she from?
She must be lost or on the run
'Cause before she started sipping our cheap beer
There wasn't much to talk about 'round here

No there wasn't much to talk about 'round here
'Cept how 'bout dem Vols this year? (How 'bout them Vols man?)
'Fore we put that grape vine back in gear
There wasn't much to talk about 'round here

At least there wasn't 'til you left town
And I didn't try to track you down
And everybody 'round here wondering how I let you slip away 'cause

It ain't everyday
A girl like you rolls in and shakes
This whole town upside down
But since you came around
It's all where's that girl? And where'd she go?
Will she come back? Hell I don't know but
Somebody oughta buy me a cheap beer
There wasn't much to talk about 'round here
Oh no, wasn't much to talk about 'round here

It ain't everyday
A girl like you rolls in and shakes
This whole town upside down
But since you came around
It's all where's that girl? And where'd she go?
Will she come back? Hell I don't know but
Somebody oughta buy me a cheap beer
'Cause before her tail lights took my heart and disappeared
There wasn't much to talk about 'round here
There wasn't much to talk about 'round here
