

## Try Texas

Larry Fleet

Diesels high as Willie  
An honest man can't afford an acre  
It's all bad news on the TV  
And nobody knows their neighbors

I need a mile long drive with a gravel road cloud  
Where I know my kids are safe when the sun goes down

Virginia's got their lovers but I'm looking at mine right now  
And Colorado gets you Rocky Mountain high I've been trying come  
back down  
Is it Georgia, Cali, Michigan  
Where does an outlaw like me fit in  
Tennessee will always be right where I left it  
So maybe I'll try Texas

I wanna stand tall for the anthem  
Hats off hand over my heart  
And I want my kids to say yes sir and yes ma'am  
Oh, and that's a damn good place to start

I heard Virginia's got their lovers but I'm looking at mine right now  
And Colorado gets you Rocky Mountain high I've been trying come  
back down  
Is it Georgia, Cali, Michigan  
Where does an outlaw like me fit in  
Tennessee will always be right where I left it  
So maybe I'll try Texas

I want a place that I can breathe in  
Countin' stars and countin' blessings  
Loving family, lovin' Jesus  
But buddy that's something you don't mess with

Virginia's got their lovers but I'm looking at mine right now  
And Colorado gets you Rocky Mountain high but I've been trying  
come back down  
Is it Georgia, Cali, Michigan  
Where does an outlaw like me fit in  
Tennessee will always be right where I left it  
So maybe I'll try Texas

Mmm, maybe I'll try... so maybe I'll try Texas
