

## Two Beer Plan

Larry Fleet

I was thinking one for me and one for you  
Maybe one more when those were through  
What's your name where you from  
A couple cold beers is all it was  
We danced we laughed  
We never looked back  
We blinked and baby just like that

Now we got a house on 60 acres  
Couple dogs and two good kids  
A small town angel and a trouble maker  
Sure sounds crazy but it all makes sense  
When we met in that bar  
I knew in my heart I never even stood a chance  
Now here we are ten years in on a two beer plan

That first year sure was tough  
But the mattress on the floor didn't matter to us  
We were wild we were young  
We were too in love to notice that the sun came up  
Now baby won't you look at us

Now we got a house on 60 acres  
Couple dogs and two good kids  
A small town angel and a trouble maker  
Sure sounds crazy but it all makes sense  
When we met in that bar  
I knew in my heart I never even stood a chance  
Now here we are ten years in on a two beer plan

I was thinking one for me and one for you  
Who'dve thought we could turn it into

A house on 60 acres  
Couple dogs and two good kids  
A small town angel and a trouble maker  
Sure sounds crazy but it all makes sense  
When we met in that bar  
I knew in my heart I never even stood a chance  
Now here we are ten years in on a two beer plan  
Honey here we are ten years in on a two beer plan  
On a two beer plan
