

I'm Sick And Tired

Larry Graham

I'm sick and tired, can't take no more
I can't take no more
I'm sick and tired, can't take no more
I can't take no more

I've had my share of sadness
And I've had some misery
And I've seen my share of badness
Now it's worse than it's used to be
Everyone's money is funny
We can't hardly buy gas, no
It can't keep goin' like this, y'all
'Cause we're going nowhere fast, hey, hey

I know there's better days ahead
With plenty of love and peace instead
But in the meantime, this is on my head, ohh

I'm sick and tired, can't take no more
I can't take no more
I'm sick and tired, can't take no more
I can't take no more

I've already gone my limit
And my back is up against the wall
My patience is all but run out
And I can't find no work at all
Everyone's feelin' the pressure
And there's tension in the air, mmm
And those so-called escapes, y'all
Take can't take us anywhere, hey, hey

I know there's better days ahead
With plenty of love and peace instead
But in the meantime, this is on my head, ohh

I'm sick and tired, can't take no more
I can't take no more
I'm sick and tired, can't take no more
I can't take no more
I'm sick and tired, can't take no more
I can't take no more
I'm sick and tired, can't take no more
I can't take no more

Well, I'm sick and tired, I can't take no more
I'm sick of bein' hungry, tired of bein' poor
I got bill collectors on my back
And the unemployment office don't know how to act
It's been thirteen months since I had a job
Times are gettin' rough, my head is gettin' hard
I'm sick, tired, broke, fired
I know you feel the same, so you might as well sing

I'm sick and tired, can't take no more
I can't take no more, every sing it
I'm sick and tired, can't take no more

I can't take no more, no more
