

There's Something About You

Larry Graham

There's somethin' about you, baby
That turns me around
There's somethin' about you, baby
That turns me around

Lovely little creature
You put the Mona Lisa to shame
I like to be your teacher
I'll teach ya how to call my name
Let's run away together
Just you and I, just you and I
There's nothin' I would rather
Than havin' you as my bride, baby

There's somethin' about you, baby
That turns me around
There's somethin' about you, baby
That turns me around

The spark that burns inside you
Has grown into a roarin' blaze
Your love has overcome me
Put me in a daze, yeah, yeah
There's no one like you, baby
I love ya bein' close to me
As you really put the lock on my heart
And baby, you're the key, baby

I feel lighter, I see brighter
Your love lifts me higher and a-higher
Baby, baby, baby
Baby, oh, baby
Ooh, your kiss has, so much feelin'
Your love leaves me rockin' and a-reelin'
Baby, baby, baby
Baby, oh, baby
