

# A Little While

Larry June

Soon as I seen her, I knew I had to have her  
But I was fresh out a situation, I was tryna take it real slow  
So I hit her like this  
What's up baby girl? How you doing, I'm Larry

You sure look good to me  
I think we should rewind that  
I wanna give you all my love  
But only for a little while  
Love you, show you, hold you  
But we can't fall in love  
Adore you, spoil you, never control you  
But we can't fall in love

Yeah, I tried that, but she too fine  
She my summer time and my winter time  
I know you on some grown shit  
You can do it, you can do it on your own shit  
Two seater, a black coupe, so baby, pack light  
Me and you against the world, but only for the night  
Bright lights, nice dinners, sometimes I never hit  
Sometimes I just need a girl that I can vibe with  
Don't trip, I did that, I got the reservation  
Driver parked outside and he got the location  
Make sure you get home safe, then we can talk later  
I fuck with your vibe, I want to get to know you a little more, holla at me

You sure look good to me  
I think we should rewind that  
I wanna give you all my love  
But only for a little while  
Love you, show you, hold you  
But we can't fall in love  
Adore you, spoil you, never control you  
But we can't fall in love

Man, this love shit crazy, it'll play with your mind  
Sometimes I still feel alone when you right by my side  
Is my mind playing tricks on me? I don't know  
But for you, baby girl, it ain't a place I won't go  
When we first started talking, it was easy and shit  
Finally found somebody I like, I was thankful and shit  
Sometimes you get so lonely, you forget what you need  
But everything got a purpose and I'm thankful for it  
I got to get off my ass, look in the mirror, I'm him  
I got to stop complaining, I got to get to these M's  
You know I got you forreal and I ain't never gonna change  
But before I let you go, baby girl, what's your name?

You sure look good to me  
I think we should rewind that  
I wanna give you all my love  
But only for a little while  
Love you, show you, hold you  
But we can't fall in love  
Adore you, spoil you, never control you  
But we can't fall in love

This time around, man, I'm doing it for me  
This time around, we coming for everything  
This time around, man, I'm doing it for me  
This time around, we coming for everything  
Aye, aye, aye, aye
