

# Appreciate It All

Larry June

You know this game get tricky gotta stay on your toes  
You see the end results  
I really thugged for it  
Them nights on the interstate  
Made my heart colder  
State troopers 2 rugers and a bag on me  
Homie wrapped that shit wrong, left the bag open  
Had me feeling like, God damn this game bogus  
The shit we did to push around in a Range Rover  
Nineteen, bought the S5 off the lot  
Anybody knew me back then  
See the growth  
Been knew I had to break the cycle, when I had my son  
Been knew I had to cop the Rarri  
Had to run it up  
Nothing was handed to me  
Had to get it out the box  
Learned a lot from my Mom  
Learned a lot from my Pops  
Moms taught me how to love  
Pops taught me never stop  
Ride my bike down the biggest block my OG's pushin (uh)  
Careful with my words  
Cause I know them people really watching';  
On a island with my newest work  
Playin' Frank Sinatra  
Learned a lot from the streets, got I'll  
Had to eat  
Got turned out to the game around 17  
Now we cop real estate, pass it down to the seed  
The only person I depend on, nigga me

I know sometimes it get hard  
Couldn't tell you it was perfect  
But the game's been good to me (good to me)  
I know sometimes it get hard  
Couldn't tell you it was perfect  
But the game's been good to me (good to me)  
You know this game get tricky  
Gotta stay on your toes  
Stay focused nigga don't be chasin' these hoes

How the fuck you gon' hate on me  
I showed niggas better ways  
Showed niggas how to make it out the game  
You know money come and go  
But knowledge, nigga, gon' remain  
Seen so much shit comin' up I don't sleep the same  
Fuck this pain  
We eat that, we got a lot to gain  
Another level I take trips and spend fifty k  
Make it back, double up, toss it in the safe, assets use a portion for some  
real estate  
Touchdown I'm in Houston 2 escalades  
Seven thousand dollar backpacks and louie shades  
With this pretty brown thing sippin' lemonade  
Smiled so pretty

Almost made a real nigga stay  
New day another flight  
Talkin' 50k a night  
Got it from the sacrifices  
Everyday we rolled the dice  
Went hard paid the price  
She doubted me I did it twice  
Heard you niggas talkin' down fuck a text it's on sight

I know sometimes it get hard  
Couldn't tell you it was perfect  
But the game's been good to me (good to me)  
I know sometimes it get hard  
Couldn't tell you it was perfect  
But the game's been good to me (good to me)  
You know this game get tricky  
Gotta stay on your toes  
Stay focused my nigga don't be chasin' these hoes

We gotta normalize seein' our people do better  
Know what I mean?  
Following through

You know this game get tricky  
Gotta stay on your toes  
Stay focused my nigga don't be chasin' these hoes

Being a man of your word  
Shit cause ain't nobody perfect nigga  
Still learnin' myself too man
