

Cleaning My Spot (Interlude)

Larry June

Picking out some rims for the coupe, I just made some tea
Thumb locked up loading the mag for the XD
Walking through my garden, set the timer for the olive trees
Recessed lights in the ground, I'm a real P
Hot water, lemon with the ginger, watching Bruce Lee
She got a couple tricks paying bills, she bring it back to me
Cleaning the crib while I blow this tree
My life like a mission on Vice City

I'm just cleaning my spot, yeah
I'm just cleaning my spot
I'm just trying to live, I'm just trying to grow
So don't bring that vibe to me
On my way to the top
Going so hard, working towards my goals
So don't bring that vibe to me

Now the crib clean, I'm sitting on my couch 'bout to take a nap
Fasting for a week, taking calls, about to make it happen
Do what you want, just don't sabotage the operation
Marble floors in my garage, probably why they hating
The sun going down, it's 7:30, I'm still counting paper
Al hit my phone, said he got a play for us in Asia
Jumped off the couch, chopped some fruit, tossed it in the fridge
I need a vacation, I might book a flight out to Malaysia, aye

I'm just cleaning my spot
I'm just cleaning my spot
I'm just trying to live, I'm just trying to grow
So don't bring that vibe to me
On my way to the top
Going so hard, working towards my goals
So don't bring that vibe to me

I'm just cleaning my spot, yeah
I'm just cleaning my spot
