Larry June

Please don't fuck up my vibe, I've been tryna grow
Lately, I feel like they energy been wrong (Izze the Producer)
Can't knock my hustle, no
My money first class blown
Can't fuck my vibe up, no
They energy too low

First class, haters fuckin' up my vibe
Somewhere jumpin' out the trunk, gettin' money when I slide (When I slide)

King of the streets, I'm wherever I need be
Somethin' in my trunk beat a nigga like Creed III
Got your woman callin' me to tell me she need me

Your reputation, I done tore it down, hatin', better slow it down
Religion, when it come to my status, look what I made the town
Run up on Tha Truth won't be nobody leavin' safe and sound

Anytime I let this money fly, it's goin' first class
Yeah, I'm out here baggin' with the best, that's my first task
Diamonds everywhere like they were shattered, there you pick 'em up
Got them haters mad, hands in the air, stick 'em up
