

For Tonight

Larry June

I'm all yours for the night
Buckle up for the ride (yeah)
What you need got it right here
Simple things know you like
Casually call you mine
Need that thing in your life (yeah)
Got some things on your mind (yeah)
Go on and tell em' to me

Looking like somethin I see on the big screen
Make a nigga want to dress fresh, drive the GT
Pay attention when she speak to me cause I fuck with her
Maybe we should go and have lunch sometime round 3
Walked in lookin' so good excuse me
Only thing on my mind now, is you and me
We do it big, flights overseas
I got you just let me know what you need
Smile on your face when you rock with me
It feels so good I don't want to leave
I keep it one hunnid cause I care about you
And you still mean a whole lot to me

I'm all yours for the night
Buckle up for the ride (yeah)
What you need got it right here
Simple things know you like
Casually call you mine
Need that thing in your life (yeah)
Got some things on your mind (yeah)
Go on and tell em' to me (yeah)

It's somethin' about your smile
That make me wanna rock with you
Go on and tell em' to me (yeah)
And we can go right now
You know I'm tryin to rock with you (Numbers)
Hold on, you know you just my type
That little blue dress hold your body so right
Seen her in the grocery store had to play it smooth
Whispered in her ear like baby what it do (aye aye aye aye)
Spot with a view we could chill for a few
Hop in the pool, play something' cool
Live it like this cause I paid my dues
Let's go somewhere low key I'm tryna know you
Hop in, I'm tryna show you
I got a few places I been tryin' to go to
You might as well slide
Maybe we can cruise
Cause damn, I ain't never met a girl like you (what's hannin)

I'm all yours for the night
Buckle up for the ride (yeah)
What you need got it right here
Simple things know you like
Casually call you mine
Need that thing in your life (yeah)
Got some things on your mind (yeah)

Go on and tell em' to me (yeah)

It's somethin' about your smile
That make me wanna rock with you

Go on and tell em' to me (yeah)

And we can go right now

You know I'm tryin to rock with you (Numbers)

Go on and tell em' to me (yeah)
