

## From Uncle Herm

Larry June

I'm watchin' the watchers  
Who's constantly peeking, strolling, looking, but never liking  
Everybody with a smartphone get involved, your problem solved  
The hottest rappers getting numbers is what matters  
From hippie whites to thugged out blacks to cool-ass Asians  
Good job, Larry  
I pump my fist like this  
When I inspire youngsters to avoid that bullshit  
Separate yourself from negativity  
To remain successful in the music industry  
Study to occupy your mind  
Eat healthy all the time  
Oranges, exercise  
Meditation, weed, cannabis medication is the motivation  
Difficult circumstances challenge us to be strong and realize  
What's required to go from here to there  
From the bottom to the top  
I know like I know like I know  
Success is approachin' the front door  
Every decision will not be perfect  
We all get impatient when we have unrealistic expectations  
Work can double as socializing  
Self-improvement and exercising  
Yes, Lord  
Good job, Larry  
Way to go, Herm  
Yup, yup, that's him, baby  
Herm Lew
