

# Intercepted

Larry June

Yeah  
Yeah  
Uh (Helluva made this beat, baby)  
Ayy, ayy, ayy, ayy, ayy, ayy

Feds just like a cornerback, last week the pack got intercepted  
And I'm makin' big investments, flex, got a large selection  
Caught a play inside Balenci', caught a play inside the trenches  
Gettin' money, fuck these niggas, he play, I'ma up it, nigga  
They don't want no smoke, we gon' roll 'em, they know we fire shit up  
They just want the prices, we got it, this shit here high as fuck  
I be catchin' plays in the daily, I'm havin' clientele  
I should change my name to LeVeon they way I'm havin' bills

Hard times, we prevailed, spent years manifestin'  
'Nother day, another lesson, took it all as a blessin'  
Put it all in my craft, it took me to another level  
Shit got tricky, took a deep breath and got creative  
I remember vividly, y'all ain't really see the vision  
But never did complain 'bout that, I was on the mission  
Did a play inside Balenci', elevated, movin' different  
Takin' calculated risks, scale still in the kitchen

It was five in the mornin', I was up, couldn't sleep  
And if I didn't get that money then my son wouldn't eat  
And look, I didn't finish school so I was back in the streets  
And look, them police niggas was tryna assassinate me, nigga, shit

Feds just like a cornerback, last week the pack got intercepted

Made a way, always knew that it'd be better days  
Better ways, better life, better everything  
Never change, just elevated my mind frame  
Discipline, go hard, gotta make it shake  
Always had a plan, even when I lived in the A  
He don't understand, I put that work in every day  
I don't got shit to hide, nigga, I was doin' bad  
Beast mode activated, I was down to my last

It was five in the mornin', I was up, couldn't sleep  
And if I didn't get that money then my son wouldn't eat  
And look, I didn't finish school so I was back in the streets
