

Lets Get Smoothies

Larry June

I can show you what you wanna see
Come spend a little time with me
Time, time, spend a little time
Time, time, spend a little time with me
I can show you what you wanna see
Come spend a little time with me
Time, time, spend a little time
Time, time, spend a little time with me

I love it when you wear that silk shirt, that's sexy
My service kinda bad in Miami, just text me
Tryna figure out how to figure-eight the jet skit
Met her at the jewel shop, I think her name was Lexi
Baby, I don't ever do the first night sex thing
Meet me at my loft around 9, we can have a drink
Talk for a minute, get to know you, we can go and eat
Concierge got your name down, they'll buzz you in
Damn, she came through lookin' like an angel
Perfume smellin' so good, I wanna taste you
I can see why them other girls wanna hate you
And trick ass nigga do anything to save you
Damn, I think I'm on to somethin'
Fuck it, let's go take a trip to Rome or somethin'
Matter fact, let's go somewhere cozy or somethin'
I know I usually don't do this but tonight, we fuckin', yeah

I can show you what you wanna see
Come spend a little time with me
Time, time, spend a little time
Time, time, spend a little time with me
I can show you what you wanna see
Come spend a little time with me
Time, time, spend a little time
Time, time, spend a little time with me

I met her at a steakhouse, fuck it, let's go big
Morton's on Cole Street, I spent like three bills
Ooh, she lookin' like something a nigga feel
I hope you brought a jacket in the city, it's pretty chilly
You don't be on Instagram much, I kinda feel it
You like takin' pictures of your juice, I kinda dig it
I gotta take you biking one day, just through the city
Play some old school RBL then get lit
You remind me of the girl next door
Would you stick around if a nigga went rogue?
I got a show in OKC, but you can go
Before we hit the plane, she ordered a smoothie bowl
Soon as we got to the room, she jumped on it
Took off her pants and said, "Daddy, I want it"
Got a little food right before sound check
You can kiss me all over, but no hickies on my neck, what's happenin'?

I can show you what you wanna see
Come spend a little time with me
Time, time, spend a little time
Time, time, spend a little time with me
I can show you what you wanna see

Come spend a little time with me
Time, time, spend a little time
Time, time, spend a little time with me

They say love is pain, you can't let go
I caught your eye, you saw my glow
The sun, the moon, the stars, could never ever match our glow (Match our glow)
You need me with you, baby, let me turn you on (Turn you on)
