

Meet Me In Napa

Larry June

Shit I want to see you too
Nah, nah meet me somewhere
Somewhere tucked off out the way, know I mean?

Switchin' lanes on my way to Napa
Baby drove way down from Sac
You know my face card heavy baby
I can't just hang out all in Sac

A couple nights at the Stanly Ranch, I'm smashin' that
You ain't gotta trip I can handle that
Hittin' it from the back hair down so I'm grabbin' that
Say you got a meeting in the morning you gotta cancel that
Hotel suite for no reason I got hellas spots
Boyfriend blowing up your phone I know he hellas hot
I know this lifestyle go crazy but no photo op's
Sent babygirl to Macy's to grab some polo socks

Would have been my main girl
In another lifetime
I was playin' games girl
No you couldn't be mine
No matter how high I get
I'm still looking up to you
(That's what she told me)
(That's what she told me)
No matter how high
I'm still lookin' up to you
(That's what she told me)

Really just trying to get to know you and shit
(I'm still looking up to you)
I know shit happened a little fast
I was really on some cool shit
Just needed some good energy around me
Know what I mean?
(I'm still lookin' up to you)
But when I met you I was like
Damn, meet me in Napa

Would have been my main girl
In another lifetime
I was playin' games girl
No you couldn't be mine
No matter how high I get
I'm still looking up to you
(That's what she told me)
(That's what she told me)
No matter how high
I'm still looking up to you
(That's what she told me)
