Got a couple lil bitches I just chill with
Got a main bitch, and a mistress
Bending corners in the foreign on some pimp shit
Eating fish and chips, with my black bitch
Hit me on my Boost mobile, chirp chirp, I can get 'em
Prices going up and down like the gas price nigga
Niggas acting like they trapping but don't got no place to live
Really I been car crazy I might buy another Benz
Take my bitch to the A, guarantee a nigga hit
I don't want a girlfriend, man I need a whole bitch
Fucking with my nigga Steve, I just hit the Cali sticks
I just had a fucking dream that I hit for 20 bricks
In the house all day, still hit for six bands
Coulda went and got the Pradas, but I went and got the Vans
Got the Glock 40 tucked, case these niggas wanna dance
If a nigga wanna squabble, he can see me with these hands
Gahdamn

I got niggas that play on the Chargers, nigga I'm a baller
You be waiting on your bitch to get off work to use her car
I got shooters in the A-town, got shooters in the Bay
I got niggas selling kush packs, and niggas selling 'ye
Damn right I fucking said it, I'm the realest in the game
Still shop at Whole Foods, mobbing with the throw away
Staying healthy on a bitch, took my vitamins today
For you niggas speaking on me, I just touched 100k
Paranoid, I been tripping, I been riding with my K
Still adjusting to this fame, shit been fucking with my brain
I don't fuck on groupie bitches, I don't rock no fake chain
You be loving on the bitch, I just make the hoe pay me
Speaking on a real nigga, you gone make a nigga slide
Broke nigga, I'll fuck ya bitch and look her in the eyes
Fly the bitch to the Bay, I'm just trollin', I don't want her
Got her rolling marijuana on my sofa, eating healthy
