

Ocean Sounds

Larry June

Check, check, uh, uh, uh
Ayy-ayy
It's just somethin' 'bout
Oh-oh, ayy-ayy
Man, uh

Pretty brown skin, body of a goddess
Smellin' so good, really my type
I've been searchin' around but still ain't found real love
(I pulled up on her and I told her like this)
I got a couple girls I'm talkin' to, I'm tryna narrow down
Hittin' it from the (Ayy, ayy, ayy), hearin' ocean sounds
Took the Corvette to Half Moon Bay, it's foggy out
Grabbed the green tea, after that, brought the Porsche out
I let her rock my hoodie real quick, she felt the ocean breeze
Dropped her right back at the crib then back countin' G's
Quarter-million dollars in \$20s, we don't need a machine
Nigga, this the 63S, not the 43
What's happenin'?

I've been searchin' around but still ain't found real love
Still ain't found real love, ain't found real love
Made my way to the top but still ain't found real love (Real love, real love
)
But I'm happy because
For the first time in my life, I feel I found real love (I found real love)
But I'm happy because
For the first time in my life, I feel I found real love (Real love)
I found real love, oh, oh, oh

Love is when you happy with yourself, fuck what niggas talk
When shit got tough, I adjusted and worked smarter
I ain't got no hard feelings love, you can keep walkin'
I appreciate all that you've done, but this not workin'
Think I need another vacation, might hit London
'Bout to cop another location, I've been on a hunt
I ain't got no one to lean on, so I'm workin' double
When I got good with myself, that's when I found love
What's happenin'?

I've been searchin' around but still ain't found real love
Still ain't found real love, ain't found real love
Made my way to the top but still ain't found real love (Real love, real love
)
But I'm happy because
For the first time in my life, I feel I found real love (I found real love)
But I'm happy because
For the first time in my life, I feel I found real love (Real love)
I found real love, oh, oh, oh
(Ayy, ayy, ayy, ayy, ayy, ayy, ayy, ayy, ayy, ayy)

It's just somethin' 'bout (Ayy, ayy)
