I been out the way
Plottin out my move, this the perfect time
Tryna make it out, I'm stressed out but know that I'll be fine
Dark days I was by myself, them was cold times
Still lowkey traumatized but I keep a smile
There's drones in the hood now, ain't no mo hand-to-hand
Here's some advice: think about yo moves, gotta plan ahead
Imma be a legend one day, what my momma said
16, dropped outta highschool, I wish I didn't
Never went to prom in my life but I rock Prada
First snow bunny chose up, looked like Madonna
Still mackin' had to pop my collar, Hermes rocka
Been letting go, played the chopper probably never pop it

Swang, swang, swang, swang

(Hey baby hand me that motherfucking orange juice
Thank you
Nigga this beat, this beat crazy
This the kinda shit you can go swimming in the winter to
Real playa shit)

Hopping out, ASC McLaren this a rare occasion
Slow motion, 30 day run spending no paper
Sippin' 20s, pocket full of 100's, Spitta came and blessed me
I don't recommend buying no watch unless it got [?]
You gotta go through it to gain from it that's just how it go
Highs and lows, what you gon' do when the times is slow
Beast mode, coke white ones, not a crease on it
