

## Summer Snow

Larry June

How you doin' baby  
I know you still think about me  
Quit playing, hit a nigga line  
You know I fuck with you  
So quit playing with me  
Let me talk to you  
Baby, I can do a lot for you

I can be the one you can call when you down  
I can be the one you can call when you land  
Why you lookin' sexy like that, quit playing  
Hair on point and her body like damn  
I'm working on tryna' be the best that I can  
Believe in yourself, put trust in your plans  
You make a nigga wanna jump fresh, drive the rag  
Smokin', coolin', laughin', what's happening  
Half Moon Bay just to grab some lunch  
I was givin' up but you came in clutch  
I been textin' babygirl couple of months  
She make a street nigga wanna fall in love

You know I fuck with you  
But I brought G with me  
How you doin' love  
Girl you know you leavin' with me

Girl I ain't seen you in a minute  
Wrote this rap, and finally decided to spit it  
Everybody fall in love, but this a little different  
It's 5 years later and I ain't a lil nigga  
I'm a million, billion, trillion times better  
Let the bullshit go and got on another level  
I miss you like a mothafucka  
On Instagram, when I ain't doin shit likin' pictures that you j  
ust posted  
I'm happy to see you and all that  
Won't you leave with me tonight, I want that old thang back  
You know you lookin' good  
Still want me to make you my bitch  
You know I would still

Girl you know I fuck witchu  
But I brought Larry June with me  
Yeah, how you doin love?  
Tonight you leavin' with me
