

# Things You Do

Larry June

I can tell you really tryin to make that move  
I don't got that much time but I spend it with you  
Knew you was the  
When I first met you  
I know you was the one  
(Man)

Knew you was the  
When I first met you  
Somethin bout the things you do  
That make me wanna stay around  
We can do it all me and you  
You make me wanna stay around

She got a nigga down  
Stay by my side  
Body lookin' good, shining so bright  
But I'm just tryin to see what you got going tonight  
If you ain't on shit baby girl you should slide

I could tell you really tryin to make that move  
I don't got that much time but I'll spend it with you  
Knew you was the  
When I first met you  
(I knew you was the one) Man  
Knew you was the  
When I first met you  
Something about the things you do  
That make me wanna stay around  
We can do it all me and you  
You make me wanna stay around

You been hurt I can tell  
Look  
You really like me but you scared  
(It ain't even gotta be like that though you know its love)  
But she love when I'm pullin on that (oh you like that don't you)  
Girl you know my number tap in

I could tell you really tryin to make that move  
I don't got that much time but I spend it with you  
Knew you was the  
When I first met you  
(I knew you was the one) Man  
Knew you was the  
When I first met you  
Something about the things you do  
That make me wanna stay around  
We can do it all me and you  
You make me wanna stay around
