

Wait On Me

Larry June

Would you wait on me
Or would you walk away? (Walk away)
You're so beautiful to me
You make me wanna stay (Wanna stay)

If you gon' love me
Love everything I come with
I did some shit in my past that I'm forever stuck with
But shit it made me a man
And it gave me a plan
I still believe in miracles, but I do go hard as I can
Hard water and lemon
On my way to a play
Last natural VA
I'm in that 450A
I was down to my last, I went and found me a way

Have you ever had a dream so big it felt crazy? (For real)
I been all 'bout myself, tryna better myself
It ain't all 'bout wealth
You know that money gon' come
You know that's all in our blood
I need a higher percentage
You do it all for a look
I'm makin' better decisions, what's happenin'?

I know this life has it's ups and downs
If I fall would you wait on me? (Would you wait on me?)
I been dealin' with so much fake love
I swear the shit's startin' to weigh on me (It's startin' to weigh on me)
I know they love me everywhere I go
That's why I gotta keep that thang on me (Keep that thang on me)

I know this life has it's ups and downs
If I fall would you wait on me?
Would you wait on me?
Would you wait on me?
Or would you walk away? (Walk away)
You're so beautiful to me
You make me wanna stay (Wanna stay)

If you gon' keep it real, show it to me, baby, I need it
Don't be trippin' of them girls, you're the one that I need
Look, I know you been workin' a lot
So don't trip I'ma book this flight
Back shots I'ma kill it tonight
Ace of spades, and I kept it all night
You the baddest thang I seen in my life
But look I don't need a wife
I need a girl that can hold shit down
Answer the phone when I go out of town

I know this life has it's ups and downs
If I fall would you wait on me? (Would you wait on me?)
I been dealin' with so much fake love
I swear the shit's startin' to weigh on me (It's startin' to weigh on me)
I know they love me everywhere I go

That's why I gotta keep that thang on me (Keep that thang on me)

I know this life has it's ups and downs

If I fall would you wait on me?

Would you wait on me?

Would you wait on me

Or would you walk away? (Walk away)

You're so beautiful to me

You make me wanna stay (Wanna stay)
