

# You Can't Take Away The Lord

Larry Norman

You can take away my kids  
Take away my wife  
You can take away my job  
You can take away my life  
You can take away my house  
Take away my ford  
But you can't take away the Lord

(Now listen Satan)

You just can't take away the church  
Or the bible book  
Unless you wanna waste your time  
You better take a second look  
'Cause you can't take away my shield  
Can't take away my sword  
And you can't take away the Lord

Well he made me and he saved me  
Ba ba ba  
And I follow after  
Everywhere he leads  
There's peace and laughter  
Laughing in the spirit  
Listen and you'll hear it

You can take away the pill  
And the atom bomb  
Take away Einstein's theories  
And the things all yet to come  
You could'a took away the wheel  
With the dinosaur  
But you can't take away the Lord

Well he made me and he saved me  
Ba ba ba ba  
And I follow after  
Everywhere he leads  
There's peace and laughter  
Laughing in the spirit  
Listen and you'll hear it

You can take away the pill  
And the atom bomb  
Take away Einstein's theories  
And the things all yet to come  
You could'a took away the wheel  
With the dinosaur  
But you can't take away the Lord

Na na na no you'll never take away  
My sweet reward  
'Cause you can't take away the Lord
