Baby, lay it on the line
If I am on your mind
Baby, do you like romance
If you care for me, you better take this chance

Baby, I played my last card So please don't break my heart Baby, time is running out If you want me too, then you just give a shout

I wanna make love with you All night, all night long I wanna make love with you All night long

Baby, I am on my knees
Be mine, I'm begging you please
Baby, it's decision time
Got to know right now, there's nowhere you can hide

I wanna make love with you All night
I wanna make love with you All night

I wanna make love with you All night, all night long I wanna make love with you All night long
