

Can't Stop

Lasgo

Come let me take you for a ride
I know that you want to
Drop down now let's enjoy the night
Nobody but me and you

I got my engines on, hoping before I'm gone
I'll race you to the other side
So just go down

I can't stop, you can't slow me down
I can't stop, I'm at the speed of sound
I can't stop, what I'm feeling for you
Miles above the ground
I can't stop, you can't slow me down
I can't stop, I'm at the speed of sound
I can't stop, what I'm feeling for you

You say you don't believe in love
Well I know you're lying
You just pretend you've had enough
Without even trying

You need to get away, so high you gotta stay
It's clear that you were meant to be
Right here with me, me, me, me,
Right here with me, me, me, me,

I can't stop, you can't slow me down
I can't stop, I'm at the speed of sound
I can't stop, what I'm feeling for you
Miles above the ground
I can't stop, you can't slow me down
I can't stop, I'm at the speed of sound
I can't stop, what I'm feeling for you.
