

River

Lasse Lindh

We went down to the river
her and I, heart by heart
and parked the car and got naked
on the last day of that summer

such a good thing never last
such a good thing always brakes
such a good thing never last
such a good thing always brakes

We went skating last winter
Her hair had grown, and she was blonde
said she found some kind of happiness
said she found a decent man

such a good thing never last
such a good thing always brakes
such a good thing never last
such a good thing always brakes

such a good thing never last
such a good thing always brakes
