

## Live the End

Last Days Of April

If you'd only take some time tonight  
To my name  
Then maybe I'd reach to grab  
Or throw a hand out to you

And even though it'll cause you more pain  
To look back  
You ask...  
That's part of the past

You ask...  
To live the past

Live the end again  
Live the end again  
Live the end again

If you ask me, I would love to follow  
I'd help you pack  
Or would the things I pack  
Be might too much aghast

And then everything you ask forever never last  
So you ask...  
To live the past...  
Live the end...  
The end again

Live the end again  
Live the end again  
Live the end again

Live the end again  
Live the end again  
Live the end again
