

[Intro]

(Nothing I can understand)
(Mexico City in the palm of my hand)

[Verse 1]

If I knew you'd make me feel this kinda way
To make the coldest winter feel just like the spring
And I was helpless here just dreaming on my lonesome

[Chorus]

Nothing I can understand
Mexico City in the palm of my hand
I'm feeling like a billionaire
Let it go to your head if you need

[Verse 2]

I can't pretend like I ain't seeing all the flaws
But I am human, makes me like it even more
Feeling restless for perfection, I was wrong

[Pre-Chorus]

How does it look from all the way up?
All these people, it's just too much

[Chorus]

Nothing I can understand
Mexico City in the palm of my hand
I'm feeling like a billionaire
Let it go to your head if you need

Nothing I can understand
Mexico City in the palm of my hand

And we can throw it all away
Didn't know this is how I could feel

[Verse 3]

I think I'll try and come back here on holiday
Or better turn my back on home, just run away
Though I got time I cannot waste a single day now

[Pre-Chorus]

I can't deny it, I'm up and down everyday
How does it look from all the way up?
All these people, it's just too much

[Chorus]

Nothing I can understand
Mexico City in the palm of my hand
I'm feeling like a billionaire
Let it go to your head if you need

Nothing I can understand
Mexico City in the palm of my hand
And we can throw it all away
Didn't know this is how I could feel

[Outro]

I can't deny it, I'm up and down everyday
You have to fight it, you don't give in to your head
(Mexico City in the palm of my hand)
