

Look Back

Last Dinosaurs

[Intro]

I, I can't help but look, look back at everything

I, I know everything will pass, not us

[Verse 1]

I was staring at your hair, you were walking in front of me

Can't remember what you said, I know you were making fun of me

I just wanna hold your hand 'cause we only got one more day

I know this shit isn't fair, don't know how long gonna have to wait

[Chorus]

Waiting around feeling the days getting longer

Losing our minds doing the same old pattern

When I get out I'm coming straight there for you, oh, oh

[Post-Chorus]

I, I can't help but look, look back at everything

[Verse 2]

I was moving through the air you were trying to get back to sleep

I was trying to be a man, yeah, but something just broke in me

I just wanna hold your hand 'cause we only got one more day

I know this shit isn't fair, don't know how long gonna have to wait

[Chorus]

Waiting around feeling the days getting longer

Losing our minds doing the same old pattern

When I get out I'm coming straight there for you, oh, oh

And don't you forget it, I'll wait at the end of the line

Remember this when I get out I'm coming straight there for you,
oh, oh

[Post-Chorus]

I, I can't help but look, look back at everything

I, I know everything will pass, not us

[Bridge]

I (I was moving through the air you were trying to get back to sleep)

I can't help but look, look back at everything

I (I was trying to be a man yeah but something just broke in me
)

I know everything will pass not us

[Chorus]

Waiting around feeling the days getting longer

Losing our minds doing the same old pattern

When I get out I'm coming straight there for you, oh, oh

And don't you forget it, I'll wait at the end of the line

Remember this when I get out I'm coming straight there for you,
oh, oh

[Post-Chorus]

I, I can't help but look, look back at everything
I, I know everything will pass, not us
